*I agree to participate in the IMC Parent Manager Election as one of the candidates and approve the school authority to disclose my presentation materials.*

Candidate's Information				
Name	Carmen Lo			
Gender	Female	Occupation		Software Developer
Student's Name	Abrielle Lo	Class		1C
Contact No.				
Self-Introduction and Political Platform: (around 100 words)				

Having immigrated to Canada in my childhood, I was educated in an international society and immersed in a multicultural community for the majority of my life. Now living in HK, I work as a software developer at a consulting firm. I am currently a member of the CMS PTA. I have enjoyed helping with various school events including the Variety Show and administrative tasks such as tender proposal review meetings.

CMS reminds me of the place I grew up in, promoting the importance of multiculturalism and respect. I want to help build a close relationship between parents and the school. Together we can hand in hand support our children's development both in their studies and also their characters. I hope with my diverse upbringing, I can foster harmony among the teachers, students as well as parents to help CMS continue to strive in the coming years.

Self-Introduction and Political Platform: (around 100 words)				

Hi parents of CMS smarties, nice to meet you all. I am a registered social worker who once worked as the student guidance personnel in a public primary school before. During my years as a school social worker, I visualised how challenging it was for the teaching professionals, parents and students in the education system. Adding on the fast changing paces of technology and our society, the situation is just getting more pressurised. Undoubtedly, Parents, Teachers and the Incorporated Management Committee are Partners, as we all aim at nurturing global talents in CMS. Though we may have different approaches in guiding the kids, I always believe those are driven by love and care. I hope I can be a bridge between the school and the families, to make CMS an even more greater place for our kids to flourish!
